WASTE DISCHARGE REQUIREMENTS ORDER NO. 91-64
AND
MONITORING AND REPORTING PROGRAM NO. 91-64

FOR

CALIFORNIA DEPARTMENT OF TRANSPORTATION
WILLOW CREEK MAINTENANCE STATION
WILLOW CREEK, CALIFORNIA

Humboldt County

The California Regional Water Quality Control Board, North Coast Region (hereinafter Regional Water Board), finds that:

1. The California Department of Transportation (hereinafter referred to as the discharger) operates a maintenance facility on a five-acre parcel between Willow Creek and the Trinity River. The property is further described as Humboldt County Assessors Parcel No. 522-492-01 and is within Section 29, T7N, R5E, Humboldt Base and Meridian.
2. On April 25, 1991, Waste Discharge Requirements Order No. 91-64 was issued to the discharger. Order No. 91-64 was issued to regulate the discharge of treated effluent from the vehicle washrack to a septic system and leachfield.
3. The discharger ceased discharges from the vehicle washrack in January 2001. A closed loop recycle system is currently in use at the vehicle washrack. Therefore, Order No. 91-64 and the associated Monitoring and Reporting Program No. 91-64 are no longer necessary.
4. Regional Water Board action to rescind Waste Discharge Requirement Order No. 91-64 and Monitoring and Reporting Program No. 91-64 is exempt from the California Environmental Quality Act (Public Resources Code Section 21000 et seq.) in accordance with Title 14, California Code of Regulations Section 15061(b)(3).

5. The Regional Water Board notified the public of its intent to rescind existing waste discharge requirements and has provided an opportunity for comment.
6. The Regional Water Board, in a public hearing, heard and considered all comments pertaining to this matter.

THEREFORE, IT IS HEREBY ORDERED that Waste Discharge Requirements Order No. 91-64 and Monitoring and Reporting Program No. 91-64 for the California Department of Transportation, Willow Creek Maintenance Station located in Willow Creek, California, are rescinded.
